

A close-up photograph of a person's hands holding a grey and black Yale bike lock. The lock has a silver-colored combination dial with numbers 0-9. The Yale logo is visible on the top part of the lock. In the background, a bicycle with a black frame and a black tire is partially visible. The scene is brightly lit, suggesting an outdoor setting.

**Yale**

## The Yale Bike Lock Range

There is an easier way to secure your bike.  
Just Yale lock it!

## Did you know

- **646€** is the average value of a stolen bike
- An estimated **38%** of cyclists don't use any bike locks
- A bike is stolen every **5 minutes** in Europe
- Students are the bicycle users at the **highest risk** of theft

## Challenge

More and more of us are enjoying cycling as a great way to keep fit and stay healthy. Cycle traffic has risen almost every year as our congested cities make the morning commute more appealing on two wheels.

While countries like the Netherlands and Denmark are famed for their levels of cycling, the rest of the world are now starting to promote the benefits to both health and well-being and the environmental impact.

That increase in the popularity of bicycles has also brought with it bicycle crime, which is in some parts reported to be reaching epidemic levels. Students are often targeted with urban areas and university campuses being a particular hot spot.

With the estimated average value of a bicycle being 646€ and a reported theft every 5 minutes in Europe, educating cyclists on practical locking techniques and the need for robust security products has never been greater.

## Solution

Whether you use your bike for fun, the morning commute or in sporting competition, our new range of bike locks has been designed to keep your bike secure.

A good quality lock can put off all but the most determined and well equipped thieves. Our products carry the independent Sold Secure rating and combine over 182 years as one of the best-known and respected names in the lock industry with cutting edge new locking technology.

At 182 years strong, Yale is a leading security brand that protects the people, places and things we love most. We secure millions of homes and businesses worldwide with our innovative mechanical locks, alarms, safes and smart locks for front doors, interior doors, and cabinets, package deliveries and more. Yale is part of the ASSA ABLOY Group, the global leader in access solutions.
